

Environmental Resources and Support Assessment Plan					
Resources	Identified COI (COIs) engaged for input	Mechanism used to collect assessment data or feedback	Data collection process	Data review and action	Program feedback/advocacy to COIs
Inclusive and Diverse Learning Environment	Current Students Faculty (Core) Non-Core Faculty Graduates (Recent Alumni), Program Clinical Supervisors, Admin	Except for administration, COIs are sent surveys asking about this resource. COIs are also asked to review a report that includes aggregated data from each of the surveys and invited to provide feedback, comments and suggestions for improvement. Administration receives the data report and provides feedback during a meeting with the Program Director.	All COIs except administrators are sent a survey asking for their feedback on the adequacy of this resource. Administration is provided with data and gives feedback during a meeting with the Program Director.	Data is reviewed by all Full-Time faculty during a faculty meeting dedicated to this review. Actions are decided upon and a timetable for completing them is set.	Program COIs are provided with a description of upcoming program changes/revisions via email and are asked for feedback or suggestions.

Program COIs are provided with a description of upcoming program changes/revisions via email and are asked for feedback or suggestions.

If needed, provide narrative and/or contextual information to clarify the assessment plan for Environmental Supports:

The assessment plan for Environmental Supports follows the same schedule as for the OBE Framework for Assessing Program Achievement. The COIs and data collection processes remain the same, and the data is reported out in the same way and as a part of the same report and presentation.
