

UMASS GLOBAL’S PLAN FOR ASSESSING ENVIRONMENTAL RESOURCES AND SUPPORTS 2024-2025

Plan for Assessing Environmental Resources and Supports					
Resources	Identified COI (COIs) engaged for input	Mechanism used to collect assessment data or feedback	Data collection process	Data review and action	Program feedback/advocacy to COIs
Inclusive and Diverse Learning Environment	Current Students, Faculty, Graduates (Recent Alumni), Program Clinical Supervisors, Admin	Except for administration, COIs are sent surveys asking about this resource. COIs are also asked to review a report that includes aggregated data from each of the surveys and other relevant data, and are invited to provide feedback, comments and suggestions for improvement. Administration receives the data report and provides feedback during a meeting with the Program Director and FTF.	All COIs except administrators are sent a survey asking for their feedback on the adequacy of this resource. Administration is provided with data and gives feedback during a meeting with the Program Director and FTF.	Data is reviewed by all Full-Time Faculty, inclusive of the Program Director and Assessment Coordinator, and is also reviewed by all other COIs via a written report and a presentation. Annually collected data is reviewed by Administration via a written report and during a meeting with the Program Director and the FTF at an extended faculty meeting in February or March of each year. Other COIs (adjuncts, students, grads, program clinical supervisors and site representatives) are asked to review 2 years of collected data in February or March every other year via a written report and a presentation.	Program COI’s review data as indicated in the data review and action section, and they may provide feedback and suggestions via email or during presentations. Program COIs are also provided with a description of upcoming program changes/revisions/action plans via email and are asked for feedback or suggestions.
